

*Amendments*

*In the Specification:*

Please replace the following paragraphs starting at the specified line with the specified text.

Page 16, line 14:

C1  
Cover 40c mounts on top of frame 42c, allowing access to switch actuator 30 of light switch 52c through opening 94c. Apertures 50c on cover 40c align with screw holes 92c on light switch 52c. Screws 49, or other suitable fasteners, may be used to secure cover 40c and wall outlet 52c together.

*In the Claims:*

Please replace claims 14, 22 and 43 with the following:

14. (three times amended) A frame assembly and light for covering a wall conduit in a wall, the wall conduit having components requiring access outside the frame assembly, the frame assembly comprising:

C2  
a light;

an electrical circuit providing electrical energy to the light from a power source;

a rectangular frame through which the electrical component is accessible, the frame housing the electrical circuit, the frame having sides with a depth sufficient to house the light, and the frame having an aperture in at least one of the sides allowing the light to illuminate a space outside the frame assembly through the aperture; and

a cover plate separate from the frame and for covering the frame and for providing access to the components of the wall conduit.

C3  
22. (twice amended) An assembly for use in association with a component having a connection to electrical power and requiring access during use to a portion of the component, and a separate standard-form cover for the component, the assembly comprising:

a rectangular frame through which the component is accessible; and
